

ZIP - LOCK BAG MAKING MACHINE

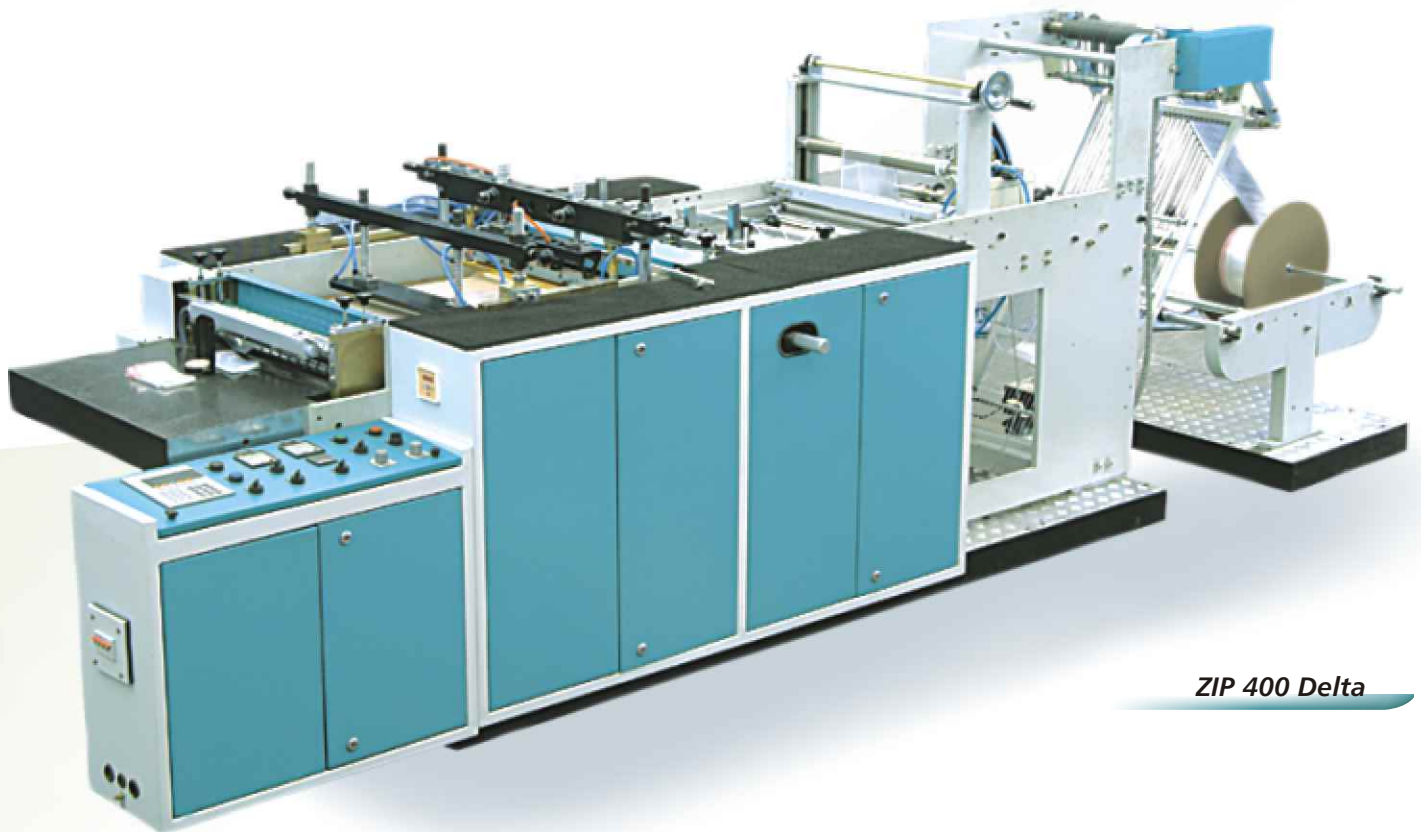

Models: ZIP 400 Delta

Suitable for Zip-lock Tubing of LDPE

DELTA Series

- Speed up to 100 strokes / min.
- Servo Motor for Indexing and Accuracy
- Microprocessor Controlled with Digital Display
- Keyboard Setting for Speed, Size & Count
- Backlit Display for Operating Parameters
- Photocell to Register one Printed Web
- Suitable for Two Webs
- Side Sealing on Silicon Rubber Moving Belt
- Water Cooled Pressure Plate for Strong Seal
- User Friendly Single Control Panel

100 strokes / min.

XL Advantage

Machines manufactured by XL Plastics are designed for continuous duty and maintenance free operation. Some of the standard features of the machines not only make them more reliable but also efficient and operator friendly

Fully Assembled & Tested: The Machine is fully assembled and tested prior to shipping. It is also shipped in assembled and pre-wired condition.

Standard Machine: The Standard Machine comprises of two Unwind Stands with Brake, Pull Rolls, Photocell Unit, Sealing Station, Belt Sealer / Conveyer, Pressure Plate and Stating Table.

Motors & Drives: Main Motor and all other motors are AC Motors with Variable Speed Control by Inverter Drives.

PID Temperature Controller: PID Temperature Controller with digital display maintains accurate sealer temperature to give consistent quality of seal.

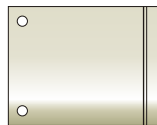

Print Registration Photocell: The best quality Photocells are used to give accurate print registration.

XL Options

The following optional attachments / tools are available to add features to the machine and to make a variety of bag structures

Standard Bag

Hole Punch

D Handle Cut
